About us

iStage is an integral and well-established company since 2015, specialized in a wide range of scaffolding rentals for construction, commercial, domestic and also has provided a variety of platforms and remarkable stages for the entertainment sector. Our company has ensured safety and security over the past years on erections of large and small setups carried out in the Maltese islands, followed by architects' certification.

We have completed numerous projects all around Malta such as; the Mtarfa Clock Tower, the Valletta Bastions restoration scaffold, the Custom's Department scaffolding facade and list of the oldest churches in Malta.

Our services

We are experts at helping you determine what construction scaffolding works best for the project you're working on. Involved in numerous successful projects in the past years in construction, restoration, and yacht maintenance. We have all the services you need.

This statement truly shows our determination in achieving our customers' most challenging requirements through our diverse capabilities, areas of expertise, and experience, regardless of size and value.

Uneven Platform:
